# INTRODUCTION

In the domain of bibliography management packages,  $\text{\LaTeX}$  offers three prominent alternatives, namely

- `bibtex`,
- `natbib`, and
- `biblatex`.

Of these, **`biblatex`** stands out as a contemporary software solution that affords a more user-friendly and versatile interface, alongside superior language localization capabilities.

This tutorial introduces the methodology of leveraging `biblatex` to effectively manage and format bibliographies within a  $\text{\LaTeX}$  document.

# MINIMAL WORKING EXAMPLE

```
1 \documentclass{article}
2
3 \usepackage{biblatex}
4 \addbibresource{sample.bib}
5
6 \begin{document}
7 Let's cite! The Einstein's journal paper \cite{einstein}
8 and the Dirac's book \cite{dirac} are physics related items.
9
10 \printbibliography
11
12 \end{document}
```

To typeset:

```
pdflatex filename.tex
biber filename
pdflatex filename.tex
```

# MINIMAL WORKING EXAMPLE

Let's cite! The Einstein's journal paper [2] and the Dirac's book [1] are physics related items.

# CUSTOMIZATION

```
1 \documentclass{article}
2 \usepackage[backend=biber,
3             style=alphabetic,
4             sorting=ynt]{biblatex}
5 \addbibresource{sample.bib}
6 \begin{document}
7 Using \texttt{biblatex} you can display bibliography divided
8   ↳ into sections, depending of citation type.
9 Let's cite! The Einstein's journal paper \cite{einstein} and
10  ↳ the Dirac's book \cite{dirac} are physics related items.
11 Next, \texttt{The \LaTeX\ Companion} book
12  ↳ \cite{latexcompanion}, the Donald Knuth's website
13  ↳ \cite{knuthwebsite}, \texttt{The Comprehensive Tex}
14  ↳ Archive Network} (CTAN) \cite{ctan} are \LaTeX\ related
15  ↳ items; but the others Donald Knuth's items
16  ↳ \cite{knuth-fa,knuth-acp} are dedicated to programming.
17 \printbibliography
18 \end{document}
```

# CUSTOMIZATION

Using `biblatex` you can display bibliography divided into sections, depending of citation type. Let's cite! The Einstein's journal paper [Ein05] and the Dirac's book [Dir81] are physics related items. Next, *The L<sup>A</sup>T<sub>E</sub>X Companion* book [GMS93], the Donald Knuth's website [Knu], *The Comprehensive TeX Archive Network* (CTAN) [Gre93] are L<sup>A</sup>T<sub>E</sub>X related items; but the others Donald Knuth's items [Knu73; Knu68] are dedicated to programming.
